

Attendance: Group 2, Group 3, Group 4, Group 7, Group 8, Group 9

Last week's point of action:

- Review suggested changes for design proposal amongst groups.

Today:

- Endpoint:
 - o Agreed to maxPuzzles argument for retrieving puzzles of website.
 - o Drop optional authentication feature. Anyone can access without credentials. (sticking with GET request)
 - o Return:
 - No need for required group ID. No client_id either. Just the array of puzzles.
 - o Puzzles return only sudoku type puzzles. No variants.
- Puzzle format:
 - o ID should be a String.
 - o USER is optional.
- Sudoku
 - o Keep the solution in puzzle solution pair.
- MISC
 - o 1-10 difficulty: We might want to agree to mappings of words to ints.
 - 1 easy, 10 hard.
 - 1: very easy
 - 3: easy
 - 5: normal
 - 7: hard
 - 10: impossible
 - o No changes to OAuth implementation.
 - o String or ints for sudoku puzzle
 - 2D string array. Solution and puzzle.
 - o Empty entries in sudoku puzzle: empty string or NULL?
 - NULL.

Points of action for coming weeks:

- We will meet weekly, but attendance is not required.
- We spend the hour debugging implementations.
- No meeting next week.
